

Curriculum Vitae

Personal data

Giuseppe Saleri, born in Lumezzane on 21 August 1931

Chairman of SABAF S.p.A.

Chairman of GIUSEPPE SALERI S.a.p.A.

Career history

- 1943: In October, he sets up a de facto partnership with two acquaintances to polish aluminium cutlery.
- 1945: Having liquidated the partnership, he sells all the cutlery-polishing equipment, receiving munitions equipment converted for deburring in exchange. With the help and experience of his father, a specialist worker in lathe working, he begins subcontracting work.
- 1947: The company SALERI BATTISTA & FIGLI Snc is registered and begins to produce items for the agricultural sector in addition to subcontracting work.
- 1949: The subcontracting work is abandoned and all his brothers join the company. The production of items for the agricultural sector is gradually abandoned and the company begins production of sanitary valves.
- 1950: The company begins production of valves for domestic gas appliances.
- 1956: Following the Suez Canal crisis, the production of sanitary valves is definitively abandoned in order to specialise in the production of gas valves.
- 1968: SALERI BATTISTA & FIGLI Snc becomes SABAF S.p.A., in which Giuseppe Saleri is one of the directors.
- 1972: SABAF completely renews its machinery, adopting cutting-edge technology, and completes the process of specialisation to meet the increasingly specific needs of its core market.
- 1993: Following a competitive tender process, together with a nephew, he acquires 100% of SABAF.
- 1998: He decides to list SABAF S.p.A. on the Italian Stock Exchange, with 46% of the share capital going to the market and employees.
- 2000: SABAF, reflecting the values that have always inspired the decisions of its chairman Giuseppe Saleri, launches a process of social responsibility, initiating an open dialogue with its stakeholders.
- 2002: SABAF opens its new facility in Ospitaletto, a cutting-edge industrial complex for technology, safety and environmental sustainability.

Today, the Sabaf Group has 600 employees, making it one of the biggest manufacturing companies in the Brescia region and the world's leading producer of components for gas cooking appliances.

Ospitaletto, 12 April 2012.
